uPVC PROFILES

truVU Leading the market in quality and innovation, our uPVC window profiles are crafted to deliver exceptional durability, energy efficiency, and modern design for every space. Our profiles offer outstanding durability, weather resistance, and thermal efficiency. Designed to last, our uPVC windows feature multi-chambered profiles that boost insulation, ensuring a comfortable indoor climate while reducing energy usage. Backed by a 20-year warranty against cracks or colour fading, these windows are built to endure. Choose from a range of styles and finishes, including casement, sliding, slide & fold and tilt-and-turn options, to perfectly match your preferences.

ULTRA PREMIUM SERIES

Introducing our ultra-premium uPVC window profiles, designed to transform your living spaces with unmatched elegance and performance. Crafted with cutting-edge technology, these windows offer exceptional thermal insulation, ensuring energy efficiency and year-round comfort. With advanced soundproofing capabilities, they provide a peaceful sanctuary from external noise, making them ideal for both urban and suburban settings.

Built to last, our uPVC profiles are resistant to weather, corrosion, and UV damage, ensuring they retain their beauty and functionality over time. Available in a range of stylish finishes and customizable designs, these windows combine modern aesthetics with superior strength, making them the ultimate choice for luxury homes and premium commercial spaces.

COLOUR OPTIONS

Each laminate option not only enhances the visual appeal of uPVC windows but also provides additional protection against UV rays, weathering, and wear and tear. By choosing the right laminate, homeowners can enjoy the perfect blend of style, durability, and performance in their uPVC windows.
